

The Beginnings of our Data Capture Wizard

Fraser Nicoll

Strategic Product Manager

Collecting the Learners application information for you

Some assumptions currently made...

- The definition of a complete application differs between each faculty & institution
- The flexibility to configure information requested of an applicant at course level is desirable

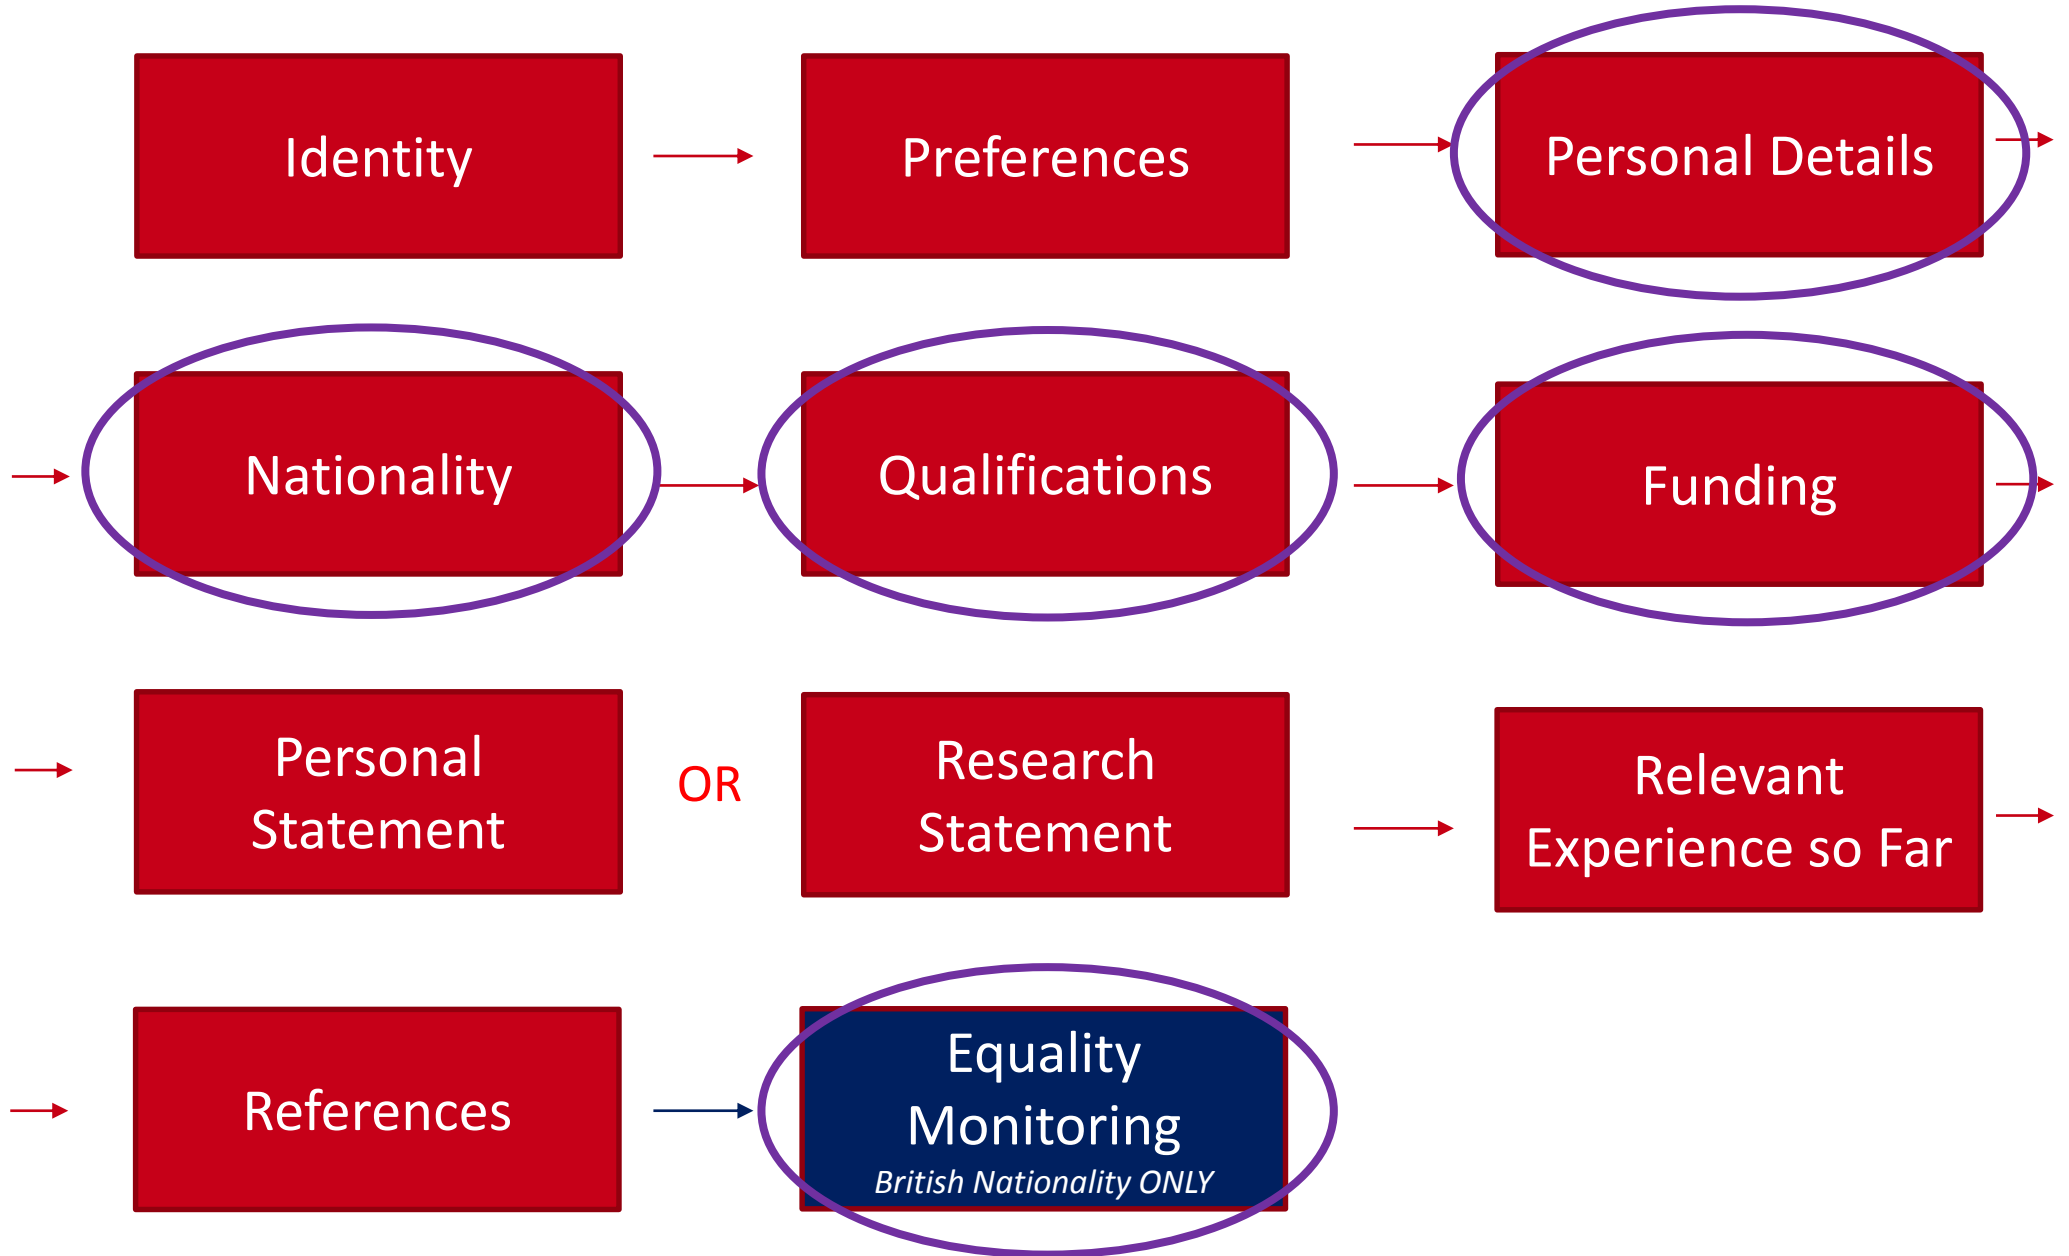

Our Goal...

- To offer an bespoke data capture wizard for every HEP dependent on their needs.

To achieve this we need

- To define a default data set of core information needed by most
- To understand extra information that may be needed to progress applications further

Application Capture Wizard

Personal Details

- Title
- Gender
- First Name (As shown on Passport)
- Surname (As shown on Passport)
