Survey of 2015 cycle UCAS applicants on the use of their personal data - data tables

Q2: We want to seek your views on some examples of how personal data could be provided for research purposes. In these examples your personal data would be used for statistical analysis but would not be used to contact you or to take any action about you personally. In each of these made-up examples please tell us your view on how acceptable you would find sharing of your personal data to the example organisation for research purposes

Survey of 2015 cycle UCAS applicants on the use of their personal data - data tables

Q2: We want to seek your views on some examples of how personal data could be provided for research purposes. In these examples your personal data would be used for statistical analysis but would not be used to contact you or to take any action about you personally. In each of these made-up examples please tell us your view on how acceptable you would find sharing of your personal data to the example organisation for research purposes

Survey of 2015 cycle UCAS applicants on the use of their personal data - data tables

Q3: Some organisations want to access your personal data so they can take a decision about offering you a particular service. In these examples the organisation would always require personal data with your name, and sometimes your contact details. Please tell us your view on how you would like your named personal data to be used in each of the made-up examples

Q3g. Please tell us your view on how you would like your named personal data to be used by recruitment companies, so that they can consider me for a job	Overall		Sex				Age band						Polar3 Quintile						Domicile
